# CONNECT THE

dots

- In 2024, an estimated 13,820 cases of invasive cervical cancer will be diagnosed in the US and about 4,360 women will die from the disease (ACS).
- Worldwide, cervical cancer is the fourth most frequent cancer in women with an estimated 604 000 new cases in 2020. Of the estimated 342 000 deaths from cervical cancer in 2020, about 90% of these occur in low- and middle-income countries (WHO).

BECAUSE WE CAN  
CERVICAL CANCER.

### GYNECOLOGICAL CANCER AWARENESS MONTH An Interview with Cervical Cancer Survivor Karla Chavez

Cervical cancer survivor and thriver, Karla Chavez, answered a few questions this month, which also is Gynecological Cancer Awareness Month. Karla Chavez is from Honduras and she is a civil engineer and amigurumi enthusiast. Karla is a 4-year cervical and thyroid cancer survivor and a proud ostomate. She is a Cervivor Ambassador, a 2019 Cervivor School graduate, and Co-leader of the Cervivor Español community. Karla was awarded the 2020 Brittany Wagner Social Media Advocacy Award Recipient and was named the 2022 Cervivor Champion Award.

Karla also participated in the 2022 HPV Cancer Survivors School hosted by the St. Jude HPV Cancer Prevention Program and powered by Cervivor, Inc.

# Our Commitment

Cervivor, as an organization, authentically embraces diversity, equity, and inclusion across all aspects, ensuring that **individuals from various backgrounds feel valued, respected, and represented**. The organization recognizes that **diversity encompasses a wide range of identities and experiences**, including persons with disabilities, religious or ethnic minorities, people of color, native/Indigenous peoples, women, gender identity, and sexual orientation.

Cervivor **actively promotes diversity by creating a safe and inclusive space** for all individuals, regardless of their background. They prioritize listening to and **amplifying the voices of marginalized groups** to ensure their needs and perspectives **are heard and addressed**. By actively engaging with and involving individuals from diverse communities, **Cervivor ensures that their programs, resources, and support services are relevant, accessible, and culturally sensitive**.

PARTNERS IN

Purpose

*"We scientists come back with statistics and numbers. While our statistics and facts may be true, they have little power in this arena. We walk into this firefight with a calculator. In the real world, statistics and data don't hold power, except on pages of a medical journal. What matters is people and their lived experience. Having powerful stories cuts through to what matters."*

**-Dr. Noel Brewer**
