

Speeding up Access to PrEP: Time from efficacy results to key milestones

Oral TDF/FTC

Dapivirine Vaginal Ring

Injectable Cabotegravir

Injectable Lenacapavir

1 Oral TDF/FTC was already approved for treatment; additional WHO pre-qualification was not required.

2 DVR was not approved by the FDA and therefore regulatory approvals cannot be compared to FDA approval.

3 Generic oral TDF/FTC was already approved for treatment; generic DVR not currently planned.
