

# AIDS 2026 Roadmap

\*All times are BRT

| Session Code | Title                                                                                                                                                                    | Date   | Time          | Type                   | Track | Location | Intervention       |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|---------------|------------------------|-------|----------|--------------------|
| PC0101       | <a href="#">Advancing HIV prevention science and access - Session 1: Framing the future of HIV prevention: Progress, gaps, and the meaning of choice</a>                 | 26-Jul | 08:00 - 09:00 | Pre-conference session |       | 202      |                    |
| PC0301       | <a href="#">HIV cure without borders: Science, community and Latin America and Caribbean perspectives - Welcome networking</a>                                           | 26-Jul | 08:00 - 09:00 | Pre-conference session |       | 204      | Cure               |
| PC0102       | <a href="#">Advancing HIV prevention science and access - Session 2: Expanding the biomedical HIV prevention toolbox</a>                                                 | 26-Jul | 09:30 - 11:00 | Pre-conference session |       | 202      | PrEP, PEP, LA-PrEP |
| PC0302       | <a href="#">HIV cure without borders: Science, community and Latin America and Caribbean perspectives - Opening and setting the scene</a>                                | 26-Jul | 09:30 - 11:00 | Pre-conference session |       | 204      | Cure               |
| PC0103       | <a href="#">Advancing HIV prevention science and access - Session 3: Basic science shaping the future of HIV prevention: Innovations in HIV vaccine development</a>      | 26-Jul | 11:30 - 13:00 | Pre-conference session |       | 202      | HIV Vaccine        |
| PC0303       | <a href="#">HIV cure without borders: Science, community and Latin America and Caribbean perspectives - Basic science and translational clinical studies on HIV cure</a> | 26-Jul | 11:30 - 13:00 | Pre-conference session |       | 204      | Cure               |
| PC0104       | <a href="#">Advancing HIV prevention science and access - Session 4: Maintaining the momentum: From scientific innovation to real-world choice</a>                       | 26-Jul | 14:00 - 15:00 | Pre-conference session |       | 202      | HIV Vaccine        |

|        |                                                                                                                                                                                                                                                                  |        |               |                        |  |     |                      |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|---------------|------------------------|--|-----|----------------------|
| PC0304 | <a href="#">HIV cure without borders: Science, community and Latin America and Caribbean perspectives - Involving key populations and underrepresented communities in HIV cure research</a>                                                                      | 26-Jul | 14:00 - 15:00 | Pre-conference session |  | 204 | Cure                 |
| PC0105 | <a href="#">Advancing HIV prevention science and access - Session 5: Delivering prevention: From innovation to real-world choice</a>                                                                                                                             | 26-Jul | 15:30 - 17:00 | Pre-conference session |  | 202 | PrEP                 |
| PC0305 | <a href="#">HIV cure without borders: Science, community and Latin America and Caribbean perspectives - Lessons learned from other fields</a>                                                                                                                    | 26-Jul | 15:30 - 17:00 | Pre-conference session |  | 204 | Cure                 |
| PC0106 | <a href="#">Advancing HIV prevention science and access - Session 6: Perspectives and priorities: What will change the course of the epidemic?</a>                                                                                                               | 26-Jul | 17:30 - 19:00 | Pre-conference session |  | 202 |                      |
| PC0306 | <a href="#">HIV cure without borders: Science, community and Latin America and Caribbean perspectives - Opportunities and challenges for HIV cure research and implementation in Latin America and the Caribbean and what can be learned from other settings</a> | 26-Jul | 17:30 - 19:00 | Pre-conference session |  | 204 | Cure                 |
| SAT25  | <a href="#">Advances in HIV post-exposure prophylaxis (PEP): Regulatory challenges and clinical trial designs</a>                                                                                                                                                | 27-Jul | 09:30 - 11:00 | Satellite              |  | 103 | PEP                  |
| SAT50  | <a href="#">From evidence to access: Implementation science to inform Lenacapavir scale-up</a>                                                                                                                                                                   | 27-Jul | 09:30 - 11:00 | Satellite              |  | 204 | PrEP                 |
| SAT58  | <a href="#">Shared Pipeline; Shared Goal: Innovations in Long-Acting Antiretrovirals for PrEP, PEP and Treatment</a>                                                                                                                                             | 27-Jul | 11:30 - 12:30 | Satellite              |  | 103 | PrEP, PEP, Treatment |
| SAT22  | <a href="#">Galvanizing HIV cure research in LMICs - Lessons and perspectives from Africa</a>                                                                                                                                                                    | 27-Jul | 11:30 - 12:30 | Satellite              |  | 205 | Cure                 |
| SAT55  | <a href="#">From Product to Impact: National Strategies to Scale Lenacapavir and Accelerate HIV Epidemic Control</a>                                                                                                                                             | 27-Jul | 13:00 - 14:30 | Satellite              |  | 202 | PrEP, LEN            |
| SAT01  | <a href="#">Advancing HIV cure research in Africa and Latin America and Caribbean</a>                                                                                                                                                                            | 27-Jul | 13:00 - 14:30 | Satellite              |  | 103 | Cure                 |

|       |                                                                                                                                          |        |               |                       |                                                                   |      |                                        |
|-------|------------------------------------------------------------------------------------------------------------------------------------------|--------|---------------|-----------------------|-------------------------------------------------------------------|------|----------------------------------------|
| SAT41 | <a href="#">WHO clinical, service delivery and surveillance updates: new recommendations for HIV and sexually transmitted infections</a> | 27-Jul | 15:00 - 16:30 | Satellite             |                                                                   | 201  | PrEP                                   |
| SAT39 | <a href="#">Expanding prevention choice: Early Lessons from twice-yearly Lenacapavir introduction</a>                                    | 27-Jul | 15:00 - 16:30 | Satellite             |                                                                   | 202  | PrEP, LEN                              |
| SAT62 | <a href="#">From evidence to equity: Global lessons and community advocacy for Long-Acting HIV prevention implementation</a>             | 27-Jul | 15:00 - 16:30 | Satellite             |                                                                   | 205  | PrEP, LA-PrEP                          |
| SAT57 | <a href="#">Immune based strategies for HIV prevention and treatment</a>                                                                 | 27-Jul | 15:00 - 16:30 | Satellite             |                                                                   | 103  | bNAbs                                  |
| OP01  | <a href="#">Opening session</a>                                                                                                          | 27-Jul | 17:00 - 18:30 | Opening session       | Cross-track                                                       | 101A | General                                |
| PL01  | <a href="#">Rethink. Rebuild. Rise.</a>                                                                                                  | 28-Jul | 08:30 - 10:00 | Plenary session       | Cross-track                                                       | 101A | General, bNAbs                         |
| SY19  | <a href="#">bNAbs for cure: Hope or hype?</a>                                                                                            | 28-Jul | 10:30 - 11:30 | Symposium             | Track A: Basic and translational science                          | 103  | Cure, bNAbs                            |
| SAT26 | <a href="#">Bridging the implementation gap: Practical insights to strengthen HIV prevention access for key populations</a>              | 28-Jul | 12:00 - 13:00 | Satellite             |                                                                   | 201  | General                                |
| SAT10 | <a href="#">Prevention Through Partnership: How Can We Collaborate to Help End New HIV Transmissions?</a>                                | 28-Jul | 13:30 - 14:30 | Industry satellite    |                                                                   | 201  | General                                |
| SAT16 | <a href="#">Person-centred HIV prevention for key and vulnerable populations in Latin America and the Caribbean</a>                      | 28-Jul | 13:30 - 14:30 | Satellite             |                                                                   | 103  | PrEP                                   |
| SAT14 | <a href="#">Innovation, equity and impact: 20 years of Unitaid reducing HIV mortality and infections</a>                                 | 28-Jul | 13:30 - 14:30 | Satellite             |                                                                   | 204  | PrEP, LEN                              |
| SY05  | <a href="#">Beyond pills: The future of long-acting and curative therapies</a>                                                           | 28-Jul | 15:00 - 16:00 | Symposium             | Cross-track                                                       | 101A | Cure, treatment, long-acting therapies |
