

ARV-Based and Multipurpose Prevention Technology R&D Pipeline

The pipeline of non-vaccine HIV prevention products includes oral pills, vaginal rings, vaginal and rectal gels, vaginal films, long-acting injectable antiretrovirals, and more. Also pictured are the range of multipurpose prevention technologies in development that aim to reduce the risk of HIV and STIs and/or provide effective contraception for women.

PRE-CLINICAL					PHASE I		PHASE II		PHASE III		IMPLEMENTATION		Delivery System		Active Drug					
	TAF	CONRAD		MAVR TNFV	Nigerian Institute for Medical Research			FTC/ TAF	Gilead <i>Event-driven</i>		AMI	Merck <i>1-monthly</i>		TDF/ FTC	Gilead <i>Daily</i>		Enema	5P12	5P12-RANTES	
	CAB	CONRAD		CAB	PATH/ Queens Belfast University			TNFV	Johns Hopkins					FTC/ TAF	Gilead <i>Daily</i>		Intramuscular injection	AMI	Alimatravir	
	CAB	CONRAD		DS03	Queen's Belfast University									CAB	ViiV-GSK <i>2-monthly</i>		Implant	COP	Copper	
	TNFV	Gilead		CAB	University of North Carolina									LEN	Gilead <i>6-monthly</i>		Micro-array patch	DPVR	Dapivirine	
	F/ TAF	Houston Methodist		5P12	Mintaka		BIOEQUIVALENCE							DPVR	Pop Council <i>1-monthly</i>			FTC/TAF	Descovy	
	MAVR	ViiV/ Pfizer		TAF	RTI			CAB	ViiV-GSK <i>4-monthly</i>			LEN	Gilead <i>12-monthly</i>						DS03	DS003 (BMS793)
	DPVR	University of Pittsburgh						DPVR	Pop Council <i>3-monthly</i>			LEN	Gilead <i>Weekly *</i>						ELVG	Elvitegravir
Multipurpose Prevention Technologies (MPTs)																				
	F/ TDF MAB	Oak Crest/ University of North Carolina		DPVR PRTV LVGR	University of North Carolina			TAF ELVG	CONRAD									Vaginal film	MAVR	Maraviroc
	COP ZINC LAC	POP Council/ QU Belfast/ WC Medical College		DPVR METD	Queen's University Belfast			PPCM	Yaso Therapeutics									Vaginal gel	METD	Metronidazole
