The Persistence Paradigm

Our speakers today

- **Dr. Annesa Flentje**,
Stanford University
- **Dr. Brian Mustanski**,
Northwestern University
- **Grace Kumwenda**, AVAC
- **Luciana Kamel**, Instituto
Medicina Social (IMS/UERJ),
Brazil
- **Dr. Tabea Hässler**,
University of Zurich

The Persistence Paradigm: Ensuring the Longevity of Health Equity Research

Initial steps for persistence

- Do less and do it well, reevaluate and pare back our work to the most impactful
- Be rigorous in our work and honest about evidence quality in the context of research mistrust

How can we be effective during this time?

- Move past things that have held up our collective work:
 - Measurement
 - Infighting and destruction
- Harness our creativity and communities:
 - collaborative research networks
 - mutual support systems
